

Dear: PTA President, Youth Organization Director, Fund Raising Chairperson:

I would like to introduce you to a remarkable new program which is revolutionizing the way parents ensure children perform daily chores and expected behaviors!

What is Chore Master?

Chore Master is an interactive program between children, parents and a computer. The program helps organize and manage a child's daily chores and behaviors. It's simple and easy to use. Initial set up takes less than 10 minutes!

How Chore Master Works

- Parents create a User/Child account and set an allowance for each user to participate in the program.
- Parents chose from a list of pre selected chores and behaviors and assign them to their children.
- Each chore and behavior has a pre selected frequency, however, the program easily allows for changes to personalize to each child.
- The child **MUST** log onto the computer (The Chore Master Program) daily to annotate completion, non completion, or

request to be excused from daily chores and behaviors.

- Parents log on daily to confirm completion, non completion, or grant excuses for chores and behaviors not done. Confirmation takes less than a minute!
- If a child fails to complete one chore/behavior, the child loses 50% of daily allowance. Failure to complete two chores/behaviors, the child loses 75%. Failure to complete three or more, the child will not earn an allowance for that day. Don't worry, Chore Master calculates and keeps a running total for you and the child to easily review.
- Finally, at the end of the week, the child prints an allowance certificate stating how much he or she has earned for the week and presents it to their parents for payment. It's just that simple.

Benefits of Chore Master

- Children **EARN** their allowance.
- Children learn financial responsibility and accountability.
- Children learn about integrity when they annotate daily status.
- Parents feel good about giving their children an allowance.

What's in this for you?

As Chore Master is introduced across the United States, we would like to offer our program as a fundraising opportunity and share our growth and profits with schools, churches, and youth organizations dedicated to helping our youth. **AT NO COST TO YOU**, we're offering 40% of the sales price as a donation to participating organizations. As a result your organization will earn \$8 per sale!

How do you get started?

Visit www.TheChoreMaster.com to easily set up your account.

- To get started, you will need a point of contact, email address, phone number, address, and tax ID or non profit number. Bank accounts are optional.
- Chore Master will assign you a promotion code# which will be sent to you along with flyers for your distribution.
- Print as many flyers as you would like and hand them to your parents and encourage them to purchase online.
- You will receive credit for each purchase from your organization promotion code#.
- Chore Master will mail a check to your organization once a week for all purchases using your promotion code#! It's just that simple.

Got Kids.....

Got Chores.....
